

Day Trading Stocks with Tradytics

A comprehensive guide on how to use
Tradytics to day trade stocks

What is Tradytics

We are an **Artificial Intelligence Driven** trading platform that develops a wide variety of tools to help you get an edge in the market.

Where is the edge?

We analyze **over a million data points** every day from options flow, intraday stocks data, news, insiders trades, and more.

Based on this analysis, our proprietary AI algorithms extract useful information that helps us gauge market directions well before time.

TRADYTICS
AI Driven Trading

Part 1: *What* to trade?

Stocks Market Summary

A detailed view of the market, and statistics that will help you pick up stocks to day trade.

www.tradytics.com/overall-market

Part 1: *What* to trade?

Most people have scanners that alert them for different trading setups, we have **Stocks Market Summary & Tradytics Scanner** for you.

Part 1: *What* to trade?

Start by looking at symbols with **most bullish** and **bearish** movement today.

Part 1: *What* to trade?

Look at symbols from our **AI tool Surpriver** - it finds the most unusual price action from yesterday. These stocks can move big soon.

MOST UNUSUAL STOCKS BY SURPRIVER

Surpriver is our proprietary unusual stock detection tool. It uses statistical anomaly detection methods to look for unusual stock patterns that can result in big movements soon. **Lower anomaly score means more unusual.**

TICKER	ANOMALY SCORE	LAST CLOSE	AVG VOLUME(\$M)	PRICE CHANGE(%)	VOL CHANGE(%)
FTSI	-0.1028	14.11	0.327	56.952	66.173
IHT	-0.0936	2.19	0.277	-8.75	-73.595
APVO	-0.078	45.63	1.263	-0.131	-72.959
HPR	-0.068	11.67	0.814	3.001	-69.57
CIIC	-0.0594	17	0.81	0	-72.516

Part 1: *What* to trade?

Scany

Scany is Tradytics Scanner that scans over 5000 stocks every day and finds setups based on different criteria

www.tradytics.com/scany

Part 1: *What* to trade?

Tradytics Scanners

Scan stocks with our top alerts.

Good day trading filters

Tradytics filters

Remember, Scany is updated after market close. Therefore, you can only use it to prepare your watchlist for the next day.

Part 1: *What* to trade?

What if I directly want stocks to trade
without any due diligence and my own
research?

Part 1: *What* to trade?

Options Droid

Droid uses options flow data to make short term predictions for underlying stocks.

www.tradytics.com/options-droid

Options droid alerts are valid for a maximum of **two days**. It **only predicts** whether the price of the stock will go up or down within two days. It **does not predict direct entries and exits**. We will sort that out in a few slides.

Part 1: *What* to trade?

Options Droid

AI driven stock intraday predictions based on options analysis of a security.

Filters to select different types of contracts
